RUSSIAN PEOPLE CHEER WITTE FOR ENDING WAR

AFTER MANY DAYS

WILL PEACE BRING WITH JOY!

SLAY JINGOS ASSERT JAPS FEARED DEFEAT

Find Fault With Envoys for Making Peace
When They Say the Enemy Was Exhausted—Populace, However, Heard News With Delight.

ST. PETERSBURG, Aug. 30.—The news that peace had been agreed to did not become generally known here until to-day, owing to the lateness of the hour when the word arrived yesterday. The information reached a few of the Summer gardens and theatres at midnight, and was received by the people who heard it with great manifestations of joy.

At every place the health of M. Witte, the Russian envoy, who concluded the peace, was drunk with champagne.

There is general rejoicing to-day among the people over the news. M. Witte's name is on the lips of everyone, and he has become the foremost man in Russia, hardly excluding the Czar.

The fact that Witte was able to avoid the payment of an indemnity to Japan is regarded as a great victory, although the cessation of half of Sakhalin has caused some adverse comments.

The reason for this is that they would have defeated Field Marshal Oyama in the next battle.

The news comes that the Russian diplomats were able to conclude peace when Japan, in a panic, had offered to pay 500,000,000 rubles for the return of the Korean peninsula. The Japanese had been defeated in the Russo-Japanese war, and the Russian people were rejoicing at the news.

WORK ON TREATY OF PEACE RUSHED

ST. PETERSBURG, Aug. 30.—Actual work on the treaty of peace, which ended the greatest war of modern times, that between Russia and Japan, began today. The two sides in the Far East, which were in mortal combat at each other's throats, have been brought within a month at most after the Treaty of Portsmouth has been signed. Russia will be glad to withdraw her troops from Manchuria.

The men who are actually drawing up the treaty are Tatyana Fedotova, the wife of the Russian ambassador in Tokyo, and M. H. Delaunay, the Russian ambassador in Japan. Some progress has been made on the treaty already, and the work will be rushed through to give the envoys an opportunity to return home.

HOW NEWS WAS RECEIVED.
There is no question of the conference today. There will be no further sessions with the first gentlemen assigned to draw up the historic document have finished their labors.

MALDEN POLICE ARE SHAKEN UP BY MAYOR

EVERY PATROLMAN IN THE CITY, EXCEPT SIX, TRANSFERRED TO NEW ROUTE.

Disatisfied with the work of the Malden police, Mayor William A. Hastings has ordered a reshuffling will move to other duties every patrolman in the city, with the exception of six. The changes go into effect tomorrow at noon. Mayor Hastings declares there has been a lack of interest shown by the patrolmen and as a result, there has been almost no crime in the city.

It appears that Mayor Hastings waited for some time for Chief of Police Philip to see. He did not do so and the Mayor took the matter into his own hands. The reshuffling of the Malden police will mean a complete change of the Malden police force, which has been in existence for many years.

DEATH AND PANIC DUE TO VOLCANO ERUPTIONS

VESUVIUS AND STROMBOLI ACTIVE AGAIN. TWO PERSONS KILLED; 100 INJURED.

MERLIN, Italy, Aug. 29.—The ancient volcano of Vesuvius is in full eruption and is ejecting a heavy mass of lava. Dense smoke hangs over the island, and the whole island on which the volcano and the villages are lying.

A terrible detonation was heard and large landslides were heard to be in a great height, accompanied by a great column of smoke and fire, which soon covered the whole island on which the volcano is situated. All the villages of the little town were broken and houses were destroyed.

NEWSBOYS RAISING \$5,000 SCHOLARSHIP FUND

GROUP OF NEWSBOYS ON STATE HOUSE STEPS AFTER MEETING GOVERNOR DOUGLAS.

Bright Lads Who Are Trying to Secure Educational Advantages for Some of Their Number.

Here is a representative group of the newsboys of Boston. These are the boys who are now raising a fund of \$5,000 to establish a Harvard scholarship for one of their number. These are boys of the hundreds of others who sell newspapers in Boston, as elsewhere of the Boston Newsboy Union, who desire and deserve education. The Union has taken upon itself the labor of giving one of its members an education at Harvard.

Look at this picture for a moment. Here are boys of character, of enterprise, of intelligence. Boston is the most cultured city of the United States. They know it. They desire, and express their desire by a subscription of \$100 of their own funds, to get that opportunity which falls to the lot of boys who are more fortunate than they.

This figure here shows clearly the determination, ambition. Here are future merchants and lawyers, doctors, and writers who have made this the great country of the world. They have the stamina which is necessary to vast accomplishment. Their work is the strenuous thing. They desire the opportunity. That opportunity would come from this complete educational facilities. They ask that the fund be raised by the newsboys of Boston. They are now raising \$5,000. Some of the most liberal subscribers to this fund have been men who were once newsboys and know the value of a college education. Every boy who contributes to this fund, however small, and give one year, the opportunity to get that which he may have failed to get.

For ten cents, or \$100 will be welcome to the fund. There are those who will give when their attention is directed to the matter by the Union. They will contribute directly to the BOSTON AMERICAN, or to the Boston Newsboy Union, or to the Harvard Educational Fund. They do not want that when they give the first thing they see. They want to see the members of the union on their way to complete their education. They will work on until the fund is complete.

LESSONS WHICH WAR HAS TAUGHT. GENERAL.

PREPARATION.
The primary lesson to be derived from the war is the value of preparation.—Lieutenant-Commander W. I. Chambers, General Board, U. S. N.

The great, all-embracing lesson to be learned from the war is summed up in the one word, "preparation."—Major O. M. Lisak, Ordnance Department, U. S. A.

HOSPITAL SERVICE.
The Japanese hospital service has proved that the high percentage of sickness during past wars are unnecessary, as they have cut such percentages, running into the 70's and 80's to less than 3 per cent.

SECURITY.
What is practically absolute secrecy can be maintained, even against present day journalistic enterprises, such secrecy being an immensely important factor in successful strategy.

ECONOMIC.
The Russian soldier has at last had the opportunity of comparing for himself the enormous benefits derived from good government, humane treatment, public education, personal freedom, honest administration and intelligent leadership with all the opposite vices and faults as rampant in the Russian system.

LAND FIGHTING.

'TEAM WORK.'
"Team work" in armies is a matter of primary importance, as was proved by the perfect co-operation of the three Japanese armies, operating across of miles apart.

THE NEW RIFLE.
The present quick-firing, long-range rifle makes short-range battles, increases the amount of fighting by night and re-establishes the bayonet as a valuable component of the attack.

HAND GRENADES.
The return of the hand grenade and small body shield to warfare as both were used by the Japanese, will lead to the retention of the assaulting party as a valuable component of the attack.

DIRECT ASSAULT.
No fortification, however constructed, can successfully hold out against a direct assault by an enemy careless of death, with a view of skilled men and the free use of dynamite.

HOWITZERS.
Eleven-inch howitzers, designed for high angle firing, can be utilized in siege operations so effectively as to force capitulation.

FIELD PHONES AND BALLOONS.
Balloons for use with wire have failed signally, while the field telephone has proved of immense value.

BARBED WIRE AND SEARCHLIGHTS.
Among the many causes of the long-defiance at Port Arthur were barbed wire and search and star lights. Searchlights also played a prominent part in all the great land battles of the war.

SEA FIGHTING.

BATTLESHIPS AND TORPEDO BOATS.
Battleships and torpedo boats have demonstrated their efficiency as component parts of a fleet, and will probably continue to hold their former relative places in the navies of the world.

DESTROYERS.
The value of destroyers has been rendered doubtful, their main use apparently being as dispatch boats.

ANCIENTS WIRE 'UNFAR' BAND
The Watkins band has been placed on the "unfar" list by the musician's union, who are over the searching of the band at the parade of the Knights Templar last May.

Each member of the Watkins band was fined \$10, but only two have paid the fine. The fine has been expired, and, according to the regulations of the musician's union, the fine is now a mere nominal one.

The musician of Albany are well as the Watkins band, and if the Watkins band is not to be allowed to parade with the Watkins band, the Watkins band will make trouble.

Wife Got Warrant.
He did not reveal to the Judge what his real reason for leaving his wife, but the sympathy of the court was evoked, nevertheless, for some reason, and a sentence was suspended.

Mr. Gould's Response.
Mrs. Gould's response in court on the 29th was to say that she was not sure of her husband's guilt, but she was sure of her own.

Mr. Gould's Statement.
The day after his husband's sentence, Mr. Gould was arrested at the house of his wife, and he was taken to the court.

ROCKEFELLER, JR., TO GUIDE FATHER'S GIFT

NEW YORK, Aug. 29.—John D. Rockefeller is planning gifts of money for educational and charitable purposes which it is said will be far beyond any previous ones. He has hitherto made that announcement of them will satisfy the country. His method of selecting objects for his benefactions has been changed, however, and hereafter they will be made largely upon the advice of his son, John D. Rockefeller, Jr., and according to systems formed by the younger Mr. Rockefeller, with his father's approval.

Mr. Rockefeller, Jr., has just returned from his trip to Europe, and he will be in New York in a few days. He will be in New York in a few days, and he will be in New York in a few days.

Mr. Rockefeller Better.
Three months of life on his father's place in the Adirondacks have improved young Mr. Rockefeller greatly in health, and a nervous ailment of the stomach from which he suffered for nearly a year is nearly cured. Mr. Rockefeller plans, however, after spending his summer school days in Europe, to go to the University of Chicago for a month or so to the University of Chicago, and then to go to the University of Chicago for a month or so to the University of Chicago.

Mr. Rockefeller's Plan.

NEW WARSHIP VERMONT NOW READY FOR SEA

Gov. Bell's Daughter Will Officially
To-morrow at Launching
in Quincy Yard.

OF MOST POWERFUL TYPE

The United States battleship Vermont is lying on the ways at the Four River plant in Quincy with the last touches which precede a launching complete. Everything has been done by the builders and the crew of workers who have fashioned the huge hull out of steel and are sliding down into the blue water at 10:30 o'clock tomorrow.

Miss Jennie Bell, daughter of Governor Charles J. Bell of the State of Vermont, will break a bottle of wine on the battleship Vermont. She will be the first Vermont girl to have the honor of being christened. Picturesque figures at the launching of a battleship. The Governor's daughter will escort Miss Bell and her father.

Vermont is an ironclad, commensurate, but is washed by the waters of Lake Champlain, where Commander Mackintosh was killed in 1812. Besides, it has been given the name of a Vermont town.

Among them Admiral Vane and Lieutenant Clark. Under the command of the Green Mountains they say that farmer boys make the best sailors.

Most Powerful Type.

The Vermont is one of the largest and will be one of the most powerful ironclads on the sea. The length of her hull water line is 410 feet. She is of armor-plated steel hull and will draw twenty-four feet of water. The hull is of steel, though the armor plates will carry in coal, guns, machinery and equipment.

Her armament is truly that of a floating fortress. She has four 12-inch guns, four 10-inch, four 8-inch, four 6-inch, four 4-inch, four 3-inch, four 2-inch, four 1-inch, four 1/2-inch, four 1/4-inch, four 1/8-inch, four 1/16-inch, four 1/32-inch, four Short Studies of Life by Turgenev, the Great Russian

THE BEGGAR

And I realized that I also had received a gift from my brother.

A RULE OF LIFE

"Yes, even that," assented the intriguer.

A SELF-SATISFIED MAN.

Oh, how content and complacent is this amiable, promising young man!

THE SPARROW.
